Complete Maritime Solutions

# Bollinger Fourchon

Bollinger Fourchon is a 46-acre, state-of-the-art, multi-use support facility aimed at deepwater offshore support and IMR vessels servicing the Gulf of Mexico. The security enclosed facility includes staging and storage areas and a full-service shipyard with three dry docks and heavy-lift capabilities to meet the most demanding requirement. The yard has climate-controlled fabrication, mechanical and machine shops with overhead crane capacity of 30-tons. For customer convenience, Bollinger Fourchon includes a business center with offices and conference facilities and living quarters. The shipyard is also equipped with a heliport and is classified as a U.S. Foreign-Trade Zone.
